

## WINE LIST

We want to be original in everything we do,  
but we also want you to feel comfortable and at home  
so here you'll find what that means to us in a wine list.

**Small...** So that you can enjoy the company of your friends and don't have to spend hours finding the right wine at the right price from the right area and grape for you.

**Diverse...** Though not a big list we're keen to make sure that whatever your mood or taste you'll find something to enjoy here. And we've deliberately mixed up some classics in terms of region and grapes, with some of the new or more unusual kids on the wine making block.

**By the glass...** We want to provide you with the opportunity to enjoy variety of price and style.

**Value...** We're about finding some great mid-price wines you can enjoy with your mates without it costing the earth. So, you won't be able to spend loads on that sought-after Californian Cab, super Tuscan, Burgundy, or First Growth claret with us but you will enjoy great wines at great prices.

**Style...** What really rocks our boat is character so when we pick we look for things like purity, style, balance, intensity, elegance. What that means to most people is that the taste is great!

**People and Provenance...** We like to buy from artisan winemakers who are a world away from big brands and industrial scale wineries. Organic is important but most important is that they do everything they can to minimize carbon output and protect their vineyards for the next generation.

**And last but by no means least...** We don't have a sommelier but we do have a team of great people serving you who are encouraged to try as many of the wines as possible. So if you're not sure what to order, ask them for their favorites...and do tell them what you think of the wines!
